Pinky Singh

Full Stack Developer

Ludhiana, India | +91 6283043118 | pinkysingh1722@gmail.com | https://github.com/coder-pink |

SUMMARY

Passionate Full Stack Developer with 2+ years of experience in JavaScript, React. Dedicated to continuous learning and exploring new languages and tech advancements. Proven track record of writing insightful coding blogs on Dev Community. Enthusiastic about contributing to team projects and delivering high-quality software solutions.

EDUCATION

Bachelor of Computer Application (2018 – 2021)
Government College for Girls

12th Non – Medical (2016 – 2018)
Government Sen. Sec. School

10th (2014 – 2016)
Mata Mohan Dai Oswal Pubic School

SKILLS

Language and Frameworks, Tools:

- HTML5 & CSS3
- JavaScript (ES6+), TypeScript
- React, Redux, Next.js, Angular, Vue.js
- GraphQL, Webpack, PostgreSQL, VScode
- RESTful APIs, Bootstrap
- Git, GitHub, Linux, Prisma ORM
- Basic: Tailwind, Node.js, MongoDB, Docker
- SQL, Microsoft Office, Postman, n8n , Claude

SOFT SKILLS

Teamwork, Communication Skills

LANGUAGE

English, Hindi, Punjabi

WORK EXPERIENCE

Full Stack Developer - Onsite ***Dec 2025 – Present***
Brilliko Multimedia
Created responsive, mobile-first websites optimized for performance and cross-browser compatibility.
Created a inquiry management system from scratch with Nextjs and Supabase with RBAC , branch isolation, wrote edge function and policies.
Worked on group assignment and projects.

Freelance Full Stack Developer - Remote ***Mar 2025 – Sept 2025***
Business Boat India

- Created responsive, mobile-first websites optimized for performance and cross-browser compatibility.
- Built and integrated real-time chat functionality, payment gateways, and user authentication systems using Socket.io, Stripe, and JWT**.**
- Collaborated with clients to understand their business requirements, translating them into technical solutions that were user-friendly and scalable.
- Technologies used: React, Redux, Tailwind CSS, HTML5, CSS3, PHP, Laravel, Node.js, Express, MongoDB, REST APIs, Stripe, Socket.io, JWT

Software Developer - Remote
FutureBlink (OPC) PVT LTD ***Dec 2024 – Jan 2025***

- Contributed to the development of Shopify apps for client websites, focusing on trust badges and shipping bar functionalities.
- Collaborated with a team of developers to enhance the UI and resolve critical bugs, improving the overall customer experience on Shopify stores.
- Technologies used: Shopify API, Liquid,HTML, JavaScript, CSS, Git, BitBucket, React, Node, Graphql

Software Developer - Hybrid ***Jun 2023 – Nov 2024***
CodeSpex Software Services

- Wrote and maintained technical documentation for internal teams to improve knowledge sharing.

- Implemented design modifications and resolved bug issues to enhance project performance and user experience. Developed dynamic pages utilizing HTML, CSS, and JavaScript and Reacts, Angular for effective user engagement.

- Football Match Website: Improved the UI by developing responsive features for the match statistics, team lineups, live scores and real-time data integration through API usage. Integrated real-time data APIs for the Football Match Website, displaying live scores and match statistics.
- Optimized front-end performance, implementing lazy loading and reducing page load times by 30%.
- Implemented stored procedures, indexing strategies in PostgreSQL and optimized the PostgreSQL schemas and queries to reduce the query execution time.
- Chlorise CRM Ecommerce: using Laravel PHP, addressed and resolved the issues and Improved the UI align with client's goals. Improved the admin panel user interface, implemented the crud operation for the product management.

- Technologies used: React, Redux, Next.js, REST APIs, JavaScript (ES6+), Nodejs, MongoDB, Laravel PHP, PostgreSQL, Go, AWS

Computer Instructor ***2022 – 2023***

- Work as a computer instructor at param computer institute for 8 months.
- Assisted students in building and deploying small-scale web applications, helping them apply theoretical knowledge in practical environments.

Open-Source Contribution ***HacktoberFest2023, 24***

- Participated in Hacktoberfest and made contributions to 5 different repos that have some minor issues and some changes in the website.
- Improved code quality by identifying performance bottlenecks and optimizing front-end components
- Collaborated with other contributors in an international open-source community, improving project documentation and providing valuable feedback to enhance functionality.
- Gained proficiency in working with Git, GitHub, and pull requests, improving my understanding of collaboration in distributed development teams.
